Subject: Prep for Transboundary Monitoring Task Group Meeting (Oct 31)
Attachments: Spring 2019 Summary - Koocanusa Transboundary Task Group.pdf

Flag: Input on TMTG issues due today

Good morning members of the Transboundary Monitoring Task Group (TMTG)

We've got a date set and invites sent to reconvene the TMTG in late October, apologies for the delays.

In order to try and ensure we make the most of everyone's time I want your feedback on key issues for discussion in advance of the meeting. The TMTG's spring summary is attached for reference, if you need a refresher on where we left off.

Please send me your feedback on the following questions by Wednesday October 9; or confirm you have no input:

- **Are there any issues, questions, or logistics that need to be addressed in advance of 2020 monitoring activities?**
 - Recall last year's TMTG discussions focused on the logistics/issues for 2019 monitoring activities; do those arrangements simply carry forward for 2020? Are any adjustments needed or new logistical challenges for 2020?
- **Are there any additional long-term issues/questions that need to be addressed?** Previously the TMTG agreed upon the following:
 - Data entry
 - Data management activities
 - Communication strategy / data availability
 - Plans for beyond 2020
- **Tentative Agenda for October 31st meeting:**
 - Roundtable introductions
 - High level debrief on the summer's monitoring activities
 - Discuss any issues/logistics/questions we need to address in advance of 2020 monitoring activities
 - If time allows, start discussion on the list of long-term issues
 - ***Anything else you'd like to see on the agenda?***

Thanks,
Mich

-----Original Appointment-----
